medicalmuseum
@amedd.army.mil for
more information

Presented by
National Museum of
Health and Medicine

Pictured above: Examples of moulage pieces used for training purposes.

Moulage is the art of using special effects makeup for training first responders to treat injuries and disease. At NMHM's October Science Café, join artists from the National Capital Area Medical Simulation Center of the Uniformed Services University of the Health Sciences for a moulage demonstration. Learn about the artists' training, the techniques behind applying this makeup and more.
