

Stearns County Sheriff's Office Announces New Smartphone App

Stearns County Sheriff Steve Soyka is excited to announce the release of a custom smartphone application. The app will serve as an innovative way for the Sheriff's Office to connect with Stearns County residents and visitors, providing information quickly and efficiently to anyone with a smartphone.

The Stearns County Sheriff's Office app was developed by TheSheriffApp.com, a brand of OCV, LLC., which specializes in mobile app development for sheriffs' offices and public safety organizations across the country. The app offers quick access to items of public interest and is easy to use.

"The introduction of this app is another way for us to use technology to our advantage to better communicate with and assist the citizens of Stearns County. There is almost no one who does not have a cell phone these days and uses it as a primary way of getting information or communicating." says Sheriff Soyka. The app will allow users to submit tips, get alerts, check weather conditions and learn more about the Sheriff's Office, all in real time.

"The app will also allow users to seek out information related to the highest requests we get, such as jail, inmate, and warrant info, civil process info, you will be able to access gun permit application documents, and start the application process prior to ever coming to the Sheriff's Office to help save time."

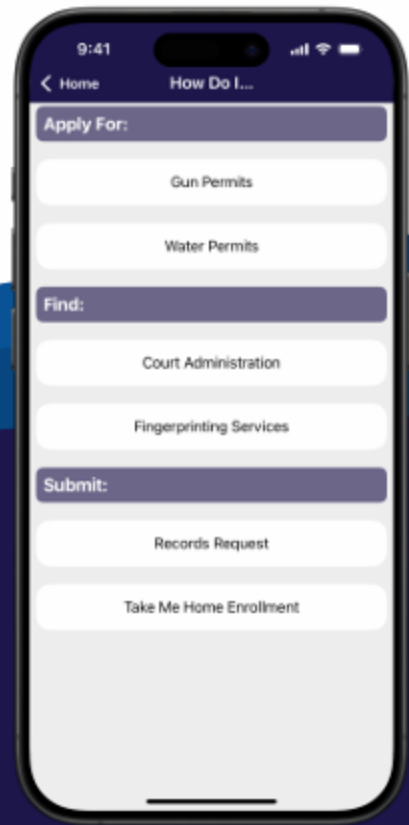

The Stearns County Sheriff's Office app is available to download for free in the App Store and Google Play by searching "Stearns County Sheriff, MN" or by scanning the QR code.
