College, Career, and Military Readiness (CCMR) Tracker

Districts should use this tool to help ensure that every student is prepared for college, a career, or the military by graduation.

What is the CCMR Tracker?

The CCMR Tracker allows districts to identify and target resources toward high school students who have yet to demonstrate college, career, or military readiness. Approved users can view district and state comparisons, download data, and sort and filter as they see fit.
Who should use the CCMR Tracker?

The CCMR Tracker and associated data must be handled in accordance with the federal Family Educational Rights and Privacy Act (FERPA) to protect student confidentiality. TEA Login (TEAL) Accountability users should exercise extreme caution and ensure that they do not violate FERPA if sharing any information provided in the Tracker with others in the district.

Where can I find the CCMR Tracker?

After logging into TEA Login (TEAL), approved users can access the Accountability application. In the Accountability application, users can access the Tracker via the 2020 College, Career, and Military Readiness (CCMR) link on the ACCT tab or within the New Items box on the Welcome page.

What action is required? Can I correct data errors with this report?

No action is required. Districts cannot submit data corrections for this report; it's for informational purposes only. If districts find data errors, they should work with testing vendors to make corrections prior to the student's graduation.
