October 25, 2024, Release

Core Application

- The Core Prepare/Finalize Status screen has been updated to correct an issue where the 'Not Loaded' status was not being displayed on the 'LEA Collection Status:' line for an LEA that had not loaded a collection.

Data Management Center (DMC)

- The following IODS unavailability message has been updated to display persistently in the DMC for LEAs that do not have an IODS created for the current school year.
 - **'No IODS Has Been Created for Your Organization for the Selected School Year:** You will NOT be able to perform any functions in this year until your IODS has been created. If you need to load data for this year, submit a TIMS ticket to request an IODS.'
- The issue has been resolved where ESC users were inheriting drill down privileges that had not been granted by the LEA. These privileges were allowing ESC staff to use LEA functionality that had not been authorized.
- The View L1.5 Filter Details page has been updated to correct an issue where the date/timestamp in the Messages column was being updated when an LEA user modified the verified checkbox.
- The 'Schedule L2 Validations Jobs' page has been updated to prevent the LEA from creating concurrent validation jobs by clicking the 'Submit' button more than once for the job.
- The ESC Load Summary report screen has been updated to correct an issue where the StudentProgramAttendanceEvent Entity was displaying in the Alternative and Supplemental Services Domain.

- The export for the Unaffiliated Staff Report header has been updated to correct an issue where the LEA level exported excel report was displaying ESC in the report header while still displaying the LEA’s data.

ECDS Application

- The ECDS Collection has been updated to align with TEDS 2025.2.0 which adds the following new descriptors to the TitleOfAssessment (C312) descriptor table:
