

Introduction to Behaviour Management

Description

There are two sessions to this course and it aims to give the participant an understanding of why children behave the way they do and what strategies will support change.

This course is delivered through Microsoft Teams and will involve participating in group work and digital learning. It is vital you have use of a suitable device such as a laptop or tablet. A mobile phone will not be sufficient as it will not allow you to participate in all activities.

Outcomes

Topics covered include:

- Why children behave the way they do
- Understanding brain development and how it links to behaviour as the child grows
- Strategies to prevent unwanted behaviour rather than reacting to the behaviour
