## What can I do this week?

This week it is...paper plate

### Monday – dinosaurs

Use a paper plate to make a dinosaur.

- You could paint, colour or collage the dinosaur before or after you cut the shapes.
- Cut the plate in half for the body.
- Use the other half of the plate to cut out the head, tail and arms and legs.
- You could use split pins to join the parts. This means they can move as you play with the dinosaur.
- You could make up a story using your dinosaur character or sing a dinosaur song.
