

Cumbria County Council

What can I do this week?

This week it is...paper plates

Friday – crowns

- Using a paper plate is an easy way to make a crown.
- Draw lines crossing over the centre of the plate up to the rim to make triangles.
- Cut along the lines to make the separate triangles. Your child may be able to do this safely with your help.
- Bend these back and these will make the points of the crown.
- Decorate with what materials you have available to you.
