**What can I do
today?**

This week it is ...stones

Sunday

Stone Land Art and Family Portraits

- Art doesn't have to take place inside!
- On a walk or in the garden see if you can make a picture or pattern using stones. Perhaps you might like to lay a trail to follow by placing stones to make arrow shapes.
- Stone family portraits are often popular – can you use stones to make a portrait of your own family?
- This will be a great opportunity to talk about who is in your family and size adjectives e.g. Who is the largest? Who is the smallest?
- You could draw a shape and get your child to fill the outline by placing as many stones as possible.
