**What can I do
today?**

This week it is...jam jars

Tuesday -Treasure jar

- Children love to collect things just for themselves and keep them in a safe place.
- Help your child to make a treasure jar where they can store the things that they find. Search indoors and outdoors. What is safe to collect will depend on your child.
- What goes in the jar and what is treasure will depend on your child and what interests them.
- Your child could show you and tell you about what they have collected or keep them as special treasures for themselves. It is good for children to learn to share but also nice if they have some things that are just for them.
- Instead you could hide objects for them to find and make it into a treasure hunt.
