Early Years Team

**What can I do
today?**

This week it is ...toys

Friday

Props

- The play your child enjoys using their toys can be extended by adding other props that you find in the house such as pans, cardboard boxes, and paper.
- What works will depend on what your child wants to play with so take the ideas from them. Some ideas are:
 - A cardboard box can become a garage for cars with a ramp for them to drive down.
 - You could draw a town on a large sheet of paper to build houses and shops on out of bricks.
 - A cardboard shoebox could become a small world or habitat for dinosaurs, animals, or other figures. Your child could use paint or pens to decorate it.
 - Pans could be launch pads for rockets.
