Early Years Team

**What can I do
today?**

This week it is ...kitchen roll

Tuesday

Role play props

- Rescue some kitchen roll tubes from the recycling to use for role play.
- You could turn your kitchen roll tube into a telescope to go star gazing, some binoculars to go on a dinosaur or wild animal hunt or even perhaps a light sword to fight off any baddies!
- Cut and tape together two halves of the kitchen roll tube to make the binoculars and decorate with paint or glue and pieces of torn up tin foil if you want to make them shiny.
- To make a light sword simply blow up a long balloon and tape into your tube.
