Early Years Team

**What can I do
today?**

This week it is ...kitchen roll

Friday

Tunnels and garages

- You could use some kitchen roll tubes with your toy cars or car mat. Tape the tubes down with masking tape and use them as tunnels for your vehicles to travel through.
- Perhaps you could cut some tubes in half and gather a few. This could be a garage area for your cars to park in.
- Maybe you might like to number the garages or perhaps paint them different colours. You could match the cars to the right coloured garage.
