**What can I do
today?**

This week it is...paper straws

Friday

A maze

- Make a maze that you can draw around or blow a ball around using a straw. Children may need a lot of support to make the maze.
- You could plan your maze by drawing it on paper first.
- Cut different lengths of straws and make channels that a ball can fit through.
- You will need to cut the straws to different lengths, leave some gaps and block some edges.
- Stick the straws down onto card using glue or sticky tape.
