

Cumbria County Council

What can I do today?

This week it is... pegs

Thursday

Peg a number!

- Draw some spots/ pictures/ place stickers on pieces of card. Ask your child to count the pictures or dots and clip on the same number of pegs.
- Extend this for older children by writing numerals on the cards and asking them to clip the right number of pegs on the card.
- You could adapt this to match colours e.g. colour wooden pegs or use coloured plastic pegs and ask your child to clip them to the same coloured card.
- For older children you could adapt this activity to think about initial sounds in words – clip the peg on the correct sound to match the picture (see photo)
