**What can I do
today?**

This week it is....pans

Thursday - creatures

- Decorate your pans to make animals and creatures.
- You could use pegs for the hair or arms, pipe cleaners or paper for their mouths. Jam jar lids make good googly eyes.
- When you have your characters, creatures and animals you can make up a story. Start by deciding what your creatures like to do, eat, who their family are, where they live, what is their favourite food etc. Ask your child these questions to build the character.
- When you have the character you could start to make up stories about them. You can do this by asking where they like would to go on a trip for the day or on holiday...what happens on the trip?
- When you have a story you could make a puppet show with the pan characters. Hold them by the handles. You could make a puppet stage by draping cloth over chairs indoor or outdoors.
