**What can I do  
today?**

**This week it is... treasure hunt**

## **Tuesday**

### **Shape treasure hunt**

- You or your child draw pictures of different shapes e.g. Square, Circle, Triangle and Rectangle on separate bits of paper.
- Place them face down on the floor.
- Ask your child to turn one of them over.
- Now ask them to go and find objects that match this shape and bring them back. If the object is too big to bring back, you or they could write what they have found on a piece of paper.
- Or you could ask them to take photos of the objects that they find.
- When they come back with all their treasures you could talk about how all the objects they have found are all different but they are all the same shape.
- When you have finish one shape try another.
- For a baby you could try hiding different shaped objects under a blanket or in a bag and encourage them to find and feel them.
