**What can I do
today?**

This week it is... yoghurt pots

Thursday

Where is it?

- Collect three clean yoghurt pots, turn them upside down and hide an item under one.
- Slowly move the three pots around. Can your child watch the pots and track the movement with their eyes? Can they find the right pot the object is under?
- To extend this your child could take a turn to hide the object under the pot and move them for you to find.
- You could hide two items under two different pots and ask your child to find a specific item e.g. where's the dog?
