**What can I do
today?**

This week it is...water

Tuesday – bath time

Make bath time fun by:

- Adding bubbles to blow in the air and adding favourite waterproof toys.
- Fill a washing up bowl with water and soap and your child can give their toys a bath, wrap them in a towel, dress them for bed and “read” them a bedtime story.
- Make bath targets by sticking paper circles on the bath tiles and using spray bottles to hit the targets.
- Singing and sharing rhymes with your children.
- Making up stories together about sailors, fishes, sea creatures and travels.
- Adding containers of different sizes for pouring. Find out how many small containers of water it takes to fill a bigger container.
