**What can I do
today?**

This week it is... Sticks

Wednesday

Stick art

- When out and about collect sticks of different lengths, widths and shapes.
- Find a large space to do your stick art. It can be inside or outside. Roll out a large sheet of paper or you could use an old sheet if you have one (this could be helpful when clearing away later).
- Explain to your child that you may not be able to keep their finished masterpiece. However you could take a photo and keep the sticks to do it again some other time.
- Encourage your child to be as creative as they like and design their own picture/sculpture with the sticks.
- Watch your little artist at work as they use their imagination to create their master piece.
