**What can I do
today?**

This week it is...socks

Wednesday – Puppets

- Find socks that you don't wear any more or you have lost the other sock!
- Make a sock puppet using things you find in the house.
- Wool and string are good for hair. This can be stuck on with glue or sewed on.
- Use your imagination and different creatures and characters will emerge.
- When you have made more than one puppet, they can start to chat to each other. This is a good way of children talking and using new words.
- You could develop this activity by making up stories and putting on plays with the puppets as the stars.
