

Cumbria County Council  
*Early Years Team*

**What can I do  
today?**

**This week it is...socks**

## **Monday – Washing line**

- Children Like to help around the house and it is a good way for them to learn from you.
- Sorting the washing gives lots of opportunity for early maths such as:
  - Sort the socks and put them into pairs.
  - Peg the socks on the line starting with the smallest first and ending with the biggest sock.
  - Find all the socks that are the same colour.
  - Hang socks on the line in a repeating pattern such as red sock, blue sock, green sock, red sock, blue sock, green sock, red sock, blue sock, green sock, etc....
