**What can I do
today?**

This week it is...socks

Tuesday – Smelly socks

- Find socks of different sizes from around the house that you do not wear anymore.
- Collect different things from around the house that will create different smells.
- You could use shampoo, tea, coffee, herbs such as lavender or mint, toothpaste, anything that will create a smell when added to cotton wool.
- Add one smell to a cotton wool ball and place in the sock.
- Tie the sock at the end.
- Take it in turns to smell the stocks and decide which smells you like the best.
- Can you say what the different smells are?
