Early Years Team

**What can I do
today?**

This week it is... paper

Wednesday

Boats and planes

- Have a go at the ancient art of origami!
- Use pieces of scrap paper to make paper planes. How far can your plane fly? Count footsteps to measure how far it went. Can you make it fly further? How?
- YouTube has clips of lots of different methods to make planes.
- Why don't you try making an origami boat – the British Museum has an easy to follow clip that older Early Years children may be able to follow:
https://blog.britishmuseum.org/make-your-own-Origami-inspired-by-japanese-prints/?gclid=EAlaIQobChMIjonuqb_r6wIViYXVCh155gPREAAYASAAEgJRv_D_BwE
- Try your paper boat out in the bath – can any of your toys safely float in your boat?
