**What can I do  
today?**

**This week it is...threading**

## **Friday - Jewellery**

- Children love to make jewellery for themselves and to make as presents to give to others:
  - Older children can use string and beads to make necklaces and bracelets.
  - For younger children they will need bigger items to thread. Painted cardboard tubes are great for small fingers to thread string and wool through.
  - Use a hole punch to make it easier to thread pipe cleaners through card. The card strips can then be made into bracelet shapes and fixed with sticky tape.
