**What can I do
today?**

This week it is... spoons

Saturday

A friend for Forky!

- Many children will be familiar with the Toy Story 4 Character Forky, who was just a plastic fork until a little girl turned him into a character by adding some pipe cleaner arms, a face and feet.
- Perhaps you could repurpose any disposable plastic spoon to make a friend for Forky?
- You could add feet by snapping a lollypop stick in two and attaching and weighing down with blue tac or playdough then add arms and a face with any other craft supplies you have at home!
- Perhaps your new friend would like to go on an adventure with some of your other toys?
