**What can I do
today?**

This week it is.... Ice

Monday

Frozen treasure

- Use a plastic square shaped container to freeze your treasure.
- Fill the container with water, you could add a drop of food colouring.
- Add some coloured toy jewels or beads.
- Put in the freezer overnight.
- When your treasure is frozen, tip it out into a bowl and add some water.
- Using a pastry brush or paint brush, encourage your child to brush the water over the ice to reveal the treasure by melting the ice.
- As each piece is released from the ice, pop onto a paper towel to dry.
- Count all your treasure together.

Always check small parts are not a choking hazard before using. Supervise at all times.
