

# THRIVING IN A DIGITAL AGE PATHWAYS

The Thriving in a Digital Age Pathways offer learning resources and activities to help you broaden your knowledge of key digital and data topics.

## THE DIGITAL LEADERSHIP PATHWAY

Developed by NHS Education for Scotland on behalf of Scottish Government and COSLA, the Digital Leadership Pathway provides guidance on the programmes, resources, and opportunities available to support development as a digital leader.

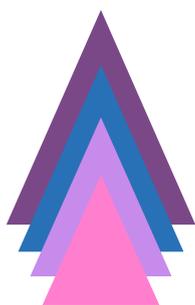

The four pathways levels are **Explore**, **Embed**, **Drive** and **Shape**.

Each pathway level has a number of select programmes and resources to enable you to build the skills and capabilities of a Digital Leader.

SCAN HERE

**The Elevate page brings you tailored opportunities to put your skills into practice.**

Here you will discover exciting opportunities to grow your influence across health and social care. By actively supporting others, contributing to national programmes, and engaging in wider initiatives, you'll help shape the future of health and social care while building your own profile as a digital leader locally and nationally.
