

# Pledge to take Action to reduce Climate Change and Promote Peace

## Why?

Climate change is probably the greatest threat to world peace. If we carry on as we are then we can expect to receive increasing numbers of migrants from countries where it is impossible to live due to drought and excess heat, widespread social unrest and wars over water supplies.

## What?

We are living in a climate emergency and we cannot expect governments to solve the problem. It is down to each and every one of us to take action today. We need to make changes in our lives that will reduce our carbon footprint and so do our bit to help save future generations from disaster.

## How?

There is a lot each one of us can do. Here are some ideas:

<ul style="list-style-type: none"><li>Fly less</li><li>Eat less meat</li><li>Walk more</li><li>Install solar panels</li><li>Cycle more</li><li>Waste less food</li><li>Turn heating down</li><li>Vote for green policies</li></ul>	<ul style="list-style-type: none"><li>Switch to green energy supplier</li><li>Drive electric</li><li>Insulate my home</li><li>Eat seasonal food</li><li>Wear clothes that last</li><li>Repair &amp; re-use</li><li>Green my money</li><li>Plant a tree</li></ul>
--	--

## Pledge

Make your pledge now to take action. Future generations will thank you for it.

Here is how:

Pledge online at [covcan.uk/pledge](https://covcan.uk/pledge)

Find a poster in your local library, community centre or school and write your pledge. Then take a photo and post on social media using #Peace&ClimatePledge.

## Find Out More

Coventry Climate Action Network website has lots more information about climate change, ideas for actions you can take and information about local organisations that are taking action to reduce climate change and so helping to save the world from disaster.

**Visit our website at [CovCAN.uk](https://CovCAN.uk)**

Thank you for doing your bit to save the planet.
