

Safety Seymour

Teaching Years 2 and 3 about carbon monoxide

Safety Seymour is a cuddly caped crusader, a bear on a mission to educate children on how we can protect ourselves and our homes from carbon monoxide!

Carbon monoxide is known as the hidden danger because we can't see, hear, smell, taste or touch it.

We are offering **FREE** half-day interactive carbon monoxide awareness sessions (live or virtual) for Years 2 and 3.

All children will receive an activity pack and CO alarm to take home.

"Amazing! The children really enjoyed it and the videos were very engaging. They're keen to go and check the fires around their houses and to speak to their adults about carbon monoxide."

"This day was great! Very informative and put across in a child-friendly way. The children were really engaged throughout the day and went away wanting to talk all about it."

SPREADING THE WORD ABOUT CARBON MONOXIDE

SPREADING THE WORD ABOUT CARBON MONOXIDE

The CO Crew - Interactive Online Learning. It's totally free for schools and designed to be a teacher led session for Years 5 and 6.

The session centres around Mimi and Loz, the two members of The CO Crew, who educate children in a fun and engaging way on the dangers of carbon monoxide and how to stay safe.

We'll provide you with everything you need to run a fun and engaging lesson.

FOR YEARS
5 AND 6

"I THOUGHT IT WAS REALLY GOOD. THE VIDEOS WERE TERRIFIC AND ARE SHORT AND ENGAGING, AND I THINK THE CHEESY JOKES MAKE PEOPLE GIGGLE. I THOUGHT THE CONTENT WAS GOOD, EVERYBODY KNOWS HOW DANGEROUS IT IS."
