

**Global
School Alliance**

Funding for Coventry schools to join the **Sister School Partnerships programme** and establish links with China

The Global School Alliance is delighted to be working with schools across Coventry to develop, encourage and embed school links between the cities of Coventry in UK and Wuhan in China.

Expand horizons through **cultural exchange and partnership** with China

Coventry and China have a rich history of educational co-operation with the University of Coventry's China Hub based in Beijing. This educational partnership also fosters and supports wider cultural and economic ties between both communities. The Global School Alliance has always been a key facilitator in building and supporting impactful partnerships between schools and creating countless opportunities for cultural exchange and mutual learning and bringing the world into classrooms globally.

The Sister School Partnerships programme gives UK schools an important opportunity to build an ongoing, active relationship that will create many life-changing opportunities for students, educators and the wider school community.

- Offer immersion education experiences through student exchanges and hosting
- Encourage cultural tolerance and highlight key issues around diversity and inclusion
- Support expectations of Ofsted framework
- Raise the profile of your school with parents and the local community
- Increase confidence and enthusiasm for authentic language learning
- Broaden your school's international networks
- Access new approaches to teaching, learning and professional development
- Access a variety of networking opportunities for staff
