

# Care homes – we need your help

## What's going on?

We know that everyone who works in and runs care homes wants them to be safe, happy and the best that they can be.

As frontline practitioners your insights and knowledge are highly valuable.

Could you help us to understand how safe care is delivered and how it could be defined and measured better, please?

## What we want to do? The project

The project is taking place September 2021 – August 2022.

We would like to invite care home managers and care workers to the project.

We would like a conversation with you to hear about how safe care can be delivered and how to define and measure safety.

The conversation will be by telephone or online.

You will receive a certificate of participation for the home and a £20 gift voucher for taking part in the conversation as a thank you.

## Recruitment

If you are interested in participating in the project, send us an email and we will be in touch!
