Planned Maintenance Works & Road Closure

Hello,

We will be commencing external refurbishment works at Burns House Museum on 30 June 2025 and we expect the works to last around 12 weeks.

We are completing the works on behalf of the Mauchline Conservation Area Regeneration Scheme, (CARS) in conjunction with East Ayrshire Leisure Trust.

We advise that due to the nature of the planned maintenance works we require to erect scaffolding to the elevations of both Burns House Museum & Nanse Tinnocks and as such, due to the narrow width of Castle Street, require to close to vehicles a section of Castle Street for the period of our works, pedestrian access will continue to be available as currently.

We refer to attached sketch, road signage plan and road closure permit which highlights in red the section of the road closure at Castle Street, the remaining section of Castle Street (up to Knowe) will be two way for the duration of the works.

We'll be most grateful for your cooperation over the course of the works but please contact me, Ben Frame, Contracts Manager on 07341 062548 or e-mail on benframe@cbcstone.co.uk if you have any queries or concerns.

Regards,

Ben Frame
