

EDITION 91 – Thursday 17 August 2023

SPOTLIGHT ON... Autism Friendly Cinema Screening

Event: Autism Friendly Cinema Screening - Spider-man: Across The Spider-Verse (PG)

After reuniting with Gwen Stacy (voiced by Hailee Steinfeld), Brooklyn's full-time, friendly neighbourhood Spider-Man is catapulted across the Multiverse, where he encounters the Spider Society, a team of Spider-People charged with protecting the Multiverse's very existence. But when the heroes clash on how to handle a new threat, Miles (voiced by Shameik Moore) finds himself pitted against the other Spiders and must set out on his own to save those he loves most. Anyone can wear the mask – it's how you wear it that makes you a hero.

Autism Friendly Screenings are films shown with low-level lighting, reduced sound-levels and no adverts or trailers. The auditorium will open 30 minutes before the film to allow audiences time to familiarise themselves with the space. Visits to the venue prior to the screening can also be arranged. Aimed at both children and adults on the autistic spectrum, along with their carers, families and/or friends, it is fine for audiences to move around, make noise and take breaks during the film

Date – Wednesday 23 August (Autism Friendly & Captioned)

Time – 2pm

Venue – Junction, Paradise Place, Goole, DN24 5DL

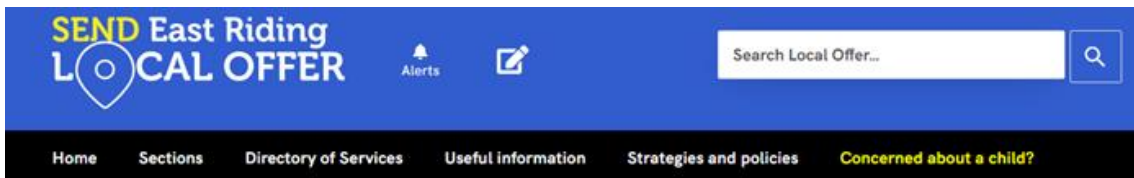

What's New on the Local Offer?

New East Riding Local Offer!

As many of you will now be aware, our new Local Offer website is now live. We hope that this new website offers greater functionality and access to information and resources. Over the coming weeks and months, we will be working hard to review the information on the Local Offer to ensure that it is accurate, relevant and up-to-date.

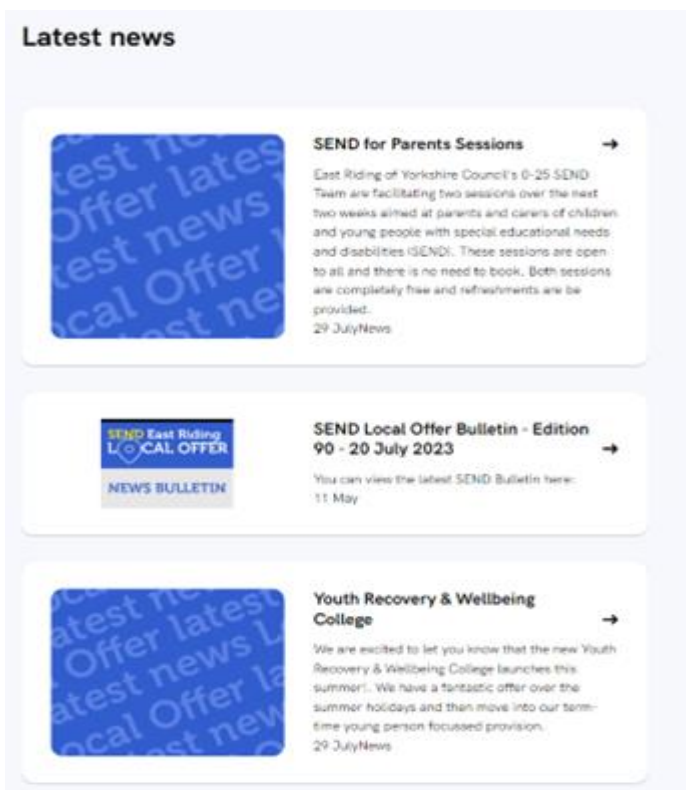

Here's some information on some of the key changes:

The new website offers a much cleaner interface – we have removed many of the tabs at the top in order to simplify the design and make it easier to find what you need. The new 'Alerts' function will provide us with the opportunity to share news and announcements with you when you visit the site, making it easier to find out about the latest developments.

We are delighted to share that our 'search' function has greatly improved – you are now able to search through the full range of services, pages and news using key words or phrases. The search will work intuitively to help you to navigate to the most relevant information based on your search. You can also search through news items for the first time.

Our new 'Latest news' page contains individual articles with the latest information and developments; you can then use the search function to search through news articles.

It is important to remember that this is just the start for the development of the Local Offer website – our new platform has lots of exciting new features and functions that we believe will greatly improve its accessibility and usefulness.

What's Next?

The Local Offer will continue to develop and improve over time – we are currently prioritising ensuring that the website contains the right information in an accessible format, removing old or outdated pages and services and refining our directory. From September 2023, we will have a dedicated Local Offer Officer who will be working alongside the Family Information Services Hub (FISH) and the web team, as well as colleagues across the authority, health partners and external stakeholders (parents/carers, young people, schools) to implement further change.

We welcome your feedback – you can contact us using the information [here](#).
