

Survey

We are running a survey to understand people's experiences. The survey will run until Wednesday 30th September 2020.

The more people who complete a survey, the better the result. You can do the survey online or ask us for a paper copy. It is quite easy to do and you may win a prize!

We will be picking a random winner after the closing date who will win £50 in high street vouchers.

What to expect

We will ask you about your experiences before the lockdown, and then how accessing health and social care services has changed since the pandemic. This will include how you manage your health condition or illness and whether you feel more or less lonely than before.

Your responses will be anonymous.

If you give us your details to be in the prize draw then we will keep them separately and destroy them after the lucky winner has been chosen at random.

How to take part

Online

Visit <https://www.smartsurvey.co.uk/s/HWGLTC>

Paper

Contact us at info@healthwatchgloucestershire.co.uk with your postal address or 0800 652 5193 and we will send you a survey along with a freepost return envelope.

Thank you for your contribution to this research. We will share findings from this research on our website anonymously.
