

Shaping Community Mental Health Together

Event 3: Your views on the design of new
community mental health services, and how
to get involved in making it happen!

24th June 2021 14:00 - 16:30

As part of the government's plans to improve the experiences of people with mental health challenges, all areas of the country are expected to change how mental health services are organised to create more holistic and personalised community based mental health services.

Join us at our third event to reflect on discussions and learning from the last two events. Plan with us how to move the work forward to design phase, coproduce the priorities and find out how you can drive the future of Community Mental Health Transformation in Gloucestershire going forward.

The main event will be recorded: you can disable your video if you choose to. There will also be breakout room discussions on how we start to **design** services.

The event will take place on Zoom. Details are:
