

# LEADING INTO THE FUTURE FOR CARE HOME STAFF

Join a community of other care home staff facing the same challenges at you.

In partnership with

The interactive online course delivers;

-  Practical hands-on skills to succeed in a supervisory, first-line manager or middle management role.
-  Skills to face workplace challenges, such as having difficult conversations, leading teams, and prioritising when under pressure.
-  Leadership strategies for driving organisational change and preparing for the future, while maintaining team performance.
-  The capability to maintain resilient teams within a resilient organisation

Delivered by an award winning Business & Coaching Psychologist and palliative care experts, we understand the challenges faced in a end of life care.

### Testimonials from Skills for Leading in Uncertain Times

" Another excellent sessions that remained informative and current. Lots to take away to support us to be better leaders and managers. Thank you"

"This really made me think about me, something that I haven't really done since COVID, I am looking forward to the next five weeks sessions"

"Presenter was great, fun, informative and "gets it". Very pleased to have undertaken this course"
