

## Environmental Action Day: Thursday 8 August 2024

We are excited to let you know that an Environmental Action Day is planned for your estate on Thursday 8 August 2024 from 11am until 5pm.

Our contractors will be out and about making sure that your estate gets some additional love and attention.

### This will include

- Mobile demonstration vehicle on-site to showcase new technology to combat damp and mould in your home
- Repairs
- Our Community Works Team painting bin doors and garden tidy up
- Collection of bulky items
- Fitness and wellbeing sessions including adult head and neck massage
- Dr Bike for any cycling repairs or instruction

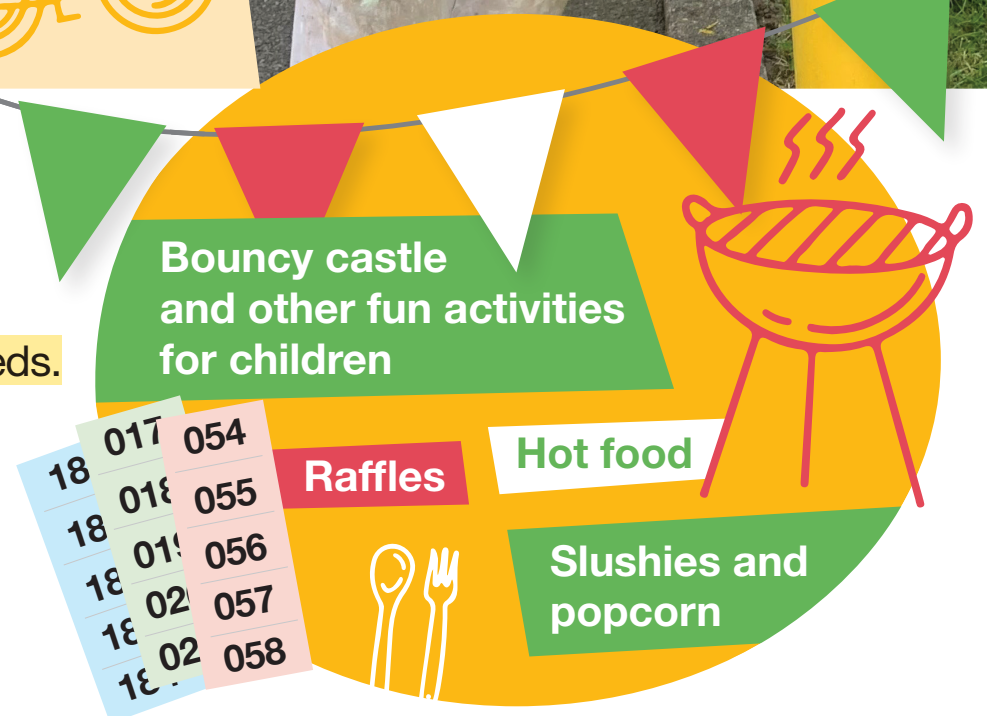

Please come and get involved. Children are welcome and should be accompanied by an adult.

There are lots of ways to take part including getting stuck in and doing some weeding or by planting some wildflower seeds.

If you want any help with bringing down bulky items for disposal, please call your Housing Officer.

 Come and see on the green behind Birch House and Purser House.

We look forward seeing you soon.

Working together to enhance Lambeth communities, one neighbourhood at a time.
