Digital People

A FREE, online, part-time coding course for 16 – 24 year olds who want to work in tech

Beginners welcome, and people looking to get job - ready

15 hours a week - AM or PM

You will learn Python - a language used by Google and others

A super-friendly and supportive team will help you all the way

A personal mentor from top tech company Cisco will help you plan for a job, apprenticeship or further learning

"I love how interactive the sessions are and the welcoming, inviting atmosphere" - March cohort learner

"I liked every module, I learnt a lot in every part, I have improved my programming skills tenfold and I am now fully confident with Python" - July cohort learner

20 places on final cohort -
