## Making their rounds...

Towards the end of last month Kathy Cowell OBE, Group Chair for MFT along with Lorraine Ganley, LCO Director of Nursing made a number of visits to teams and services.

**Talking to us first about their experience, was the Baguley Health Visiting team (pictured below).**

They were delighted to see them both and had the pleasure of receiving their Gold Community Accreditation Award (MFT scheme).

**Sam Shaw, Lead Nurse said:** “The Health Visiting service worked tirelessly throughout the pandemic to ensure our families received timely support and advice. We’re so proud that the dedication and commitment of the Baguley Health Visiting team has been recognised and we’re delighted to have received this award.”

**The Bladder and Bowel Service (pictured below) also had a visit and here’s what they had to say:**

“It was a great privilege to welcome both Kathy and Lorraine. We were thrilled to be able to showcase our passion for high quality continence care across community and acute settings and the team were delighted to see them and showcase their work. We look forward to another visit from them both at another time.”

Did your team have a visit? If so, share your experience with us to feature in a future bulletin.
