

DIGITAL SKILLS PRE-EMPLOYMENT TRAINING

COURSE CONTENT

This course is designed to provide your business with candidates who have been upskilled in the essential skills and knowledge required to work in the digital skills industry. Candidates receive expert level training and a qualification, all designed to ensure that they can deliver excellent work for your organisation.

The course consists of the following qualifications:

- Level 1 EDSQ
- Level 1 Award in Cybersecurity
- Level 2 Certificate in Digital and IT Skills

Full guidance and support will be provided to each candidate throughout the 20-day programme. Their work will be assessed through portfolio-based evidence and they will receive coaching and support to make sure they are fully prepared to progress into employment in your business.
