

Who is Fujitsu?

Fujitsu is a leading global IT company, established in Japan 1935.

Fujitsu provides IT services & products to over 180 countries- anything from computing to AI technologies. **We are the #1 IT service provider in Japan and #8th largest service provider in the world!**

Working in IT means shaping the future, solving challenges and contributing to a positive change in society - It is a gateway to a world of possibilities!

Fujitsu Guiding Futures

12-week Mentorship Programme

How does it work?

- Our programme is free and is tailored for young people aged 14-25 years.
- Our programme will launch in Jan 2024, with dates to be announced soon.
- Once signed up, mentees can create a profile and choose a mentor of their choice through our user-friendly online platform & app.
- Mentees can choose from a diverse group of mentors in IT and Business, ensuring broad selection. This helps mentees align with mentors who best support their career goals and interests.
- Safety first – our programme is fully monitored, and mentors are DBS-verified.

Level up your confidence and build on your interpersonal skills for success

Get a head start in your life- begin planning your career and future now (your future self will thank you)

Receive weekly 1-2-1 flexible & tailored mentoring support from our dedicated mentors

Feeling unsure about your next steps? Let our programme inspire you and guide you in exploring career paths in the IT and business world
