

Aim

To address the structural racial inequalities that exist in the provision of mental health services across Manchester and Trafford.

We offer matching based on ethnicity and identity when it comes to one-to-one sessions.

About Us

BHA for Equality, African & Caribbean Mental Health Services, Empower Consultants CIC and Fikawelie Caribbean and African Mental Health Unit CIC have formed a partnership to deliver culturally appropriate mental health interventions in Manchester and Trafford for people of South Asian, Black African and Caribbean communities who are experiencing severe mental illness. This includes individuals of dual heritage.

It's person-centred!

The programme is designed to place your needs at the centre of delivery.

that you would like to access
please get in touch.**

My Medication Management

Alongside the programme, you can choose
to have regular medication clinics with the
support of non-medical nurse prescribers.

For more information on
medication clinics contact us.
