

SKILLS BOOTCAMP IN CIVIL ENGINEERING & GROUNDWORKS

Are you a holder of a green CSCS card and seek to enhance your employment opportunities? Construction Skills People presents an exciting opportunity to gain industry recognised plant certifications with our new Skills Bootcamp in Civil Engineering and Groundworks.

The course consists of 5-days classroom learning:

- Mental health awareness
- Principles of civil engineering
- Asbestos awareness
- Risk avoidance
- Concrete placing, compacting and finishing
- Drainage and storm water management
- Abrasive wheels and use of power tools
- Detection of buried services for construction

A total of 62hrs of training to include a week of Plant Training to achieve your NPORS dumper licence and traffic marshal ticket

Upon successful completion of the classroom sessions, you will continue your learning and skills development at a local construction plant training centre to gain your forward tipping dumper or ride on roller licence and plant machinery marshal accreditation.
