

Care Planning Tool

Since 1 June 2023, the Partnership have been rolling out the DIALOG+ care planning tool. DIALOG+ is a holistic care plan which supports a guided conversation between a health care professional and a service user. DIALOG+ is a national directive from NHS England.

What is DIALOG+?

DIALOG+ is a set of 13 questions where a service user is asked to rate their satisfaction and their care across different parts of their life and treatment. It helps to guide a structured conversation between a health care professional and service user that is patient centred with a focus on change.

What are the benefits of DIALOG+?

DIALOG+ enables proactive, personalised conversations in order to help support service users to take greater control of their care and support as they move forward with their journey recovery.

Feedback

Your feedback is really important to us. Please let us know what you think about DIALOG+ by filling in a short and simple survey. Either scan the QR code to the right, or visit <https://tinyurl.com/25jv3n8m>

To find out more about DIALOG+ please speak to your mental health professional contact.
