

Armed Forces Day 2022 LED Screen Specification

Specification correct as of 19th Feb 2022

Armed Forces Day 2022 will have an LED Screen positioned to the side of the main stage which will be used for digital signage, advertising, scoreboards etc.

The screen size is 5m wide by 3m high.

Aspect Ratio of the screen is 16:10, images in 16:9 ratio will also work but will be slightly stretched vertically. Any images supplied with a different aspect ratio may appear with a black border.

A similar screen and structure is shown in the image below from SailGP 2021.

On the day management of screen content will be carried out by JHAV Ltd.

Still Image Content

File Types: JPEG or PNG

Resolutions of 1280 x 720 as a minimum, suggested resolution 1920 x 1200 in 16:10 aspect ratio.

Video Content

File Types: MPEG4, .MOV or WMV are preferred file types

Resolution of 1920 x 1200 is preferred or greater in a 16:10 aspect ratio.

Please note that no video or image editing will be possible onsite.
