

Primary Subject Leader Network meetings - Spring term 2024

Just to provide an update on the curriculum subject network meetings that have begun to become re-established following the Covid pandemic and PEIA funding.

This academic year they were set up originally for LA Maintained schools given some MATs may have had their own networks and CPD opportunities, but are open to all across the PEP whether LA Maintained or from MATs. This has also developed due to PEIA work and other initiatives e.g. Solent Maths Hub, STEM/Enthuse, Digital Champions, City of Languages/Association of Language Learning.

Draft agendas were suggested (see overleaf) but can be altered to reflect the needs and wants of the individual subject network groups. Draft means draft! These groups are for us! We own them.

The next general date for most is Wednesday 24th January 2024, 4 - 5pm

***Please note venues, as these may have altered from the Autumn term 2023.**

For further information or any queries please contact the PEIA co-ordinator Lauren Roe

DRAFT ideas for agendas

Second Meeting Agenda (Spring term 2024)

1. Welcome and share your Highlight from your 3Hs in this curriculum subject. What can we learn from each other?
2. CPD - what is the best CPD that you have ever had in this subject? Why was it so effective? What CPD do you currently access e.g. professional associations, and what would you recommend to a colleague who leads this subject in another school? How can we support everyone's CPD? Note the suggestions so everyone has a useful list to take back to school.
3. What does monitoring your subject look like? What have you learnt and what have you done as a result?
4. Confirm date, time, venue of next meeting

Third Meeting Agenda (Summer term 2024)

1. Welcome and share a Headache or Horizon from your 3Hs with the group. Are there any similarities and where the group can drive something forward that will support everyone? What support might the group need?
2. What does an Ofsted deep dive look like in this subject? Has anyone experienced one and can share their learning from it? How will you prepare for one? What would your priority be e.g. to talk to leaders, teachers, prepare pupils, review your curriculum, role play talking to an inspector?
3. What does assessment in your subject look like? What has it told you and what have you done as a result?
4. Confirm who will lead the group next year? What school will host? What do you need the focus of the first meeting to be?

N.B. Ofsted can provide HMI subject specialist input, probably virtually, by completing an online form ([link here](#)). HMIs for Geography Mark Enser and PE Hanna Miller are both in our south-east region.

Other ideas include:

- Sharing good practice / resources
- What works for you in your school?
- Assessment
- What might indicate pupils are working beyond the expected standard in this subject
- Where do you go for subject specialist professional advice?
- Transition

Reminder about the 3Hs

Reminder

Highlight - something that is going well or having a positive impact

Headache - a challenge or not yet having the desired impact

Horizon - the possibility of significant impact in the future
