* Children North East is a regional children's charity that works nationally to deliver Poverty Proofing©. Poverty Proofing© is a programme that CNE have developed through the voice of children, young people and their families. Its aim is to identify barriers to experiential engagement with culture that exist because of poverty. The mission of Poverty Proofing© the School Day is to ensure that “no activity or planned activity in an education setting should identify, exclude, treat differently or make assumptions about those children whose household income or resources are lower than others”. The formation of this work has sparked interest amongst education settings who likewise have a mission to ensure that they are accessible to individuals and families from all socio-economic backgrounds, or who have a lived experience of poverty.

The key aims for the session will be to

- Understand how poverty is defined
- Understand the causes and consequences of poverty and how this can impact on education
- Begin to think about the barriers financial or otherwise that low income families face and how these can impact on school life
- Begin to think about how some of these barriers can be removed in education settings
