The ND team improve early identification of neurodiversity and offer support for families and professionals.

## The ND Profiling Tool

The ND profiling tool assesses nine developmental areas of a child or young person aged 0-19. This includes:

- Speech and language
- Energy levels
- Attention skills
- Emotional regulation
- Motor skills
- Sensory levels
- Flexibility and adaptability
- Empathy
- Cognitive skills

## Did you know?

Anyone can get in touch with us to talk about a young person with neurodiverse needs  
- you don't need a diagnosis to chat with us!

Some young people will need an assessment to identify their needs further.

We will talk to you about this.
