PADDLESPORTS FUN

A great way to explore the water, build paddle skills and grow confidence whilst working as a team in challenges and fun games. Perfect for all ages.

DISCOVER SAILING

Take to the water and harness the wind as students work together, learning sailing fundamentals in a safe and fun environment on gentle waters as they discover the joys of sailing.

SUSTAINABILITY

Our brand new interactive sustainability programme offers students a unique opportunity to explore the STEM learning objectives within the nation curriculum outside the classroom.

AND SO MUCH MORE!

Book directly with your local centre. Our centre teams are available to help with everything relating to your trip, from designing the perfect package to individual needs on the day.
