

# CATCLIFFE CONE

## VIDEO PROJECTION ARTWORK

We are creating a video projection on Catcliffe Cone, looking at the processes of glass making, and the idea of change and transformation. As part of this we need your help. We want you to think of a person, place, object or gift that reminds you of when something changed in your life. It might be about getting a year older, moving house, a new friend, a place or feeling. Then draw this object on the cone below, or if you prefer write about it on the cone instead. We will collect these drawings and descriptions and use them in the projection.

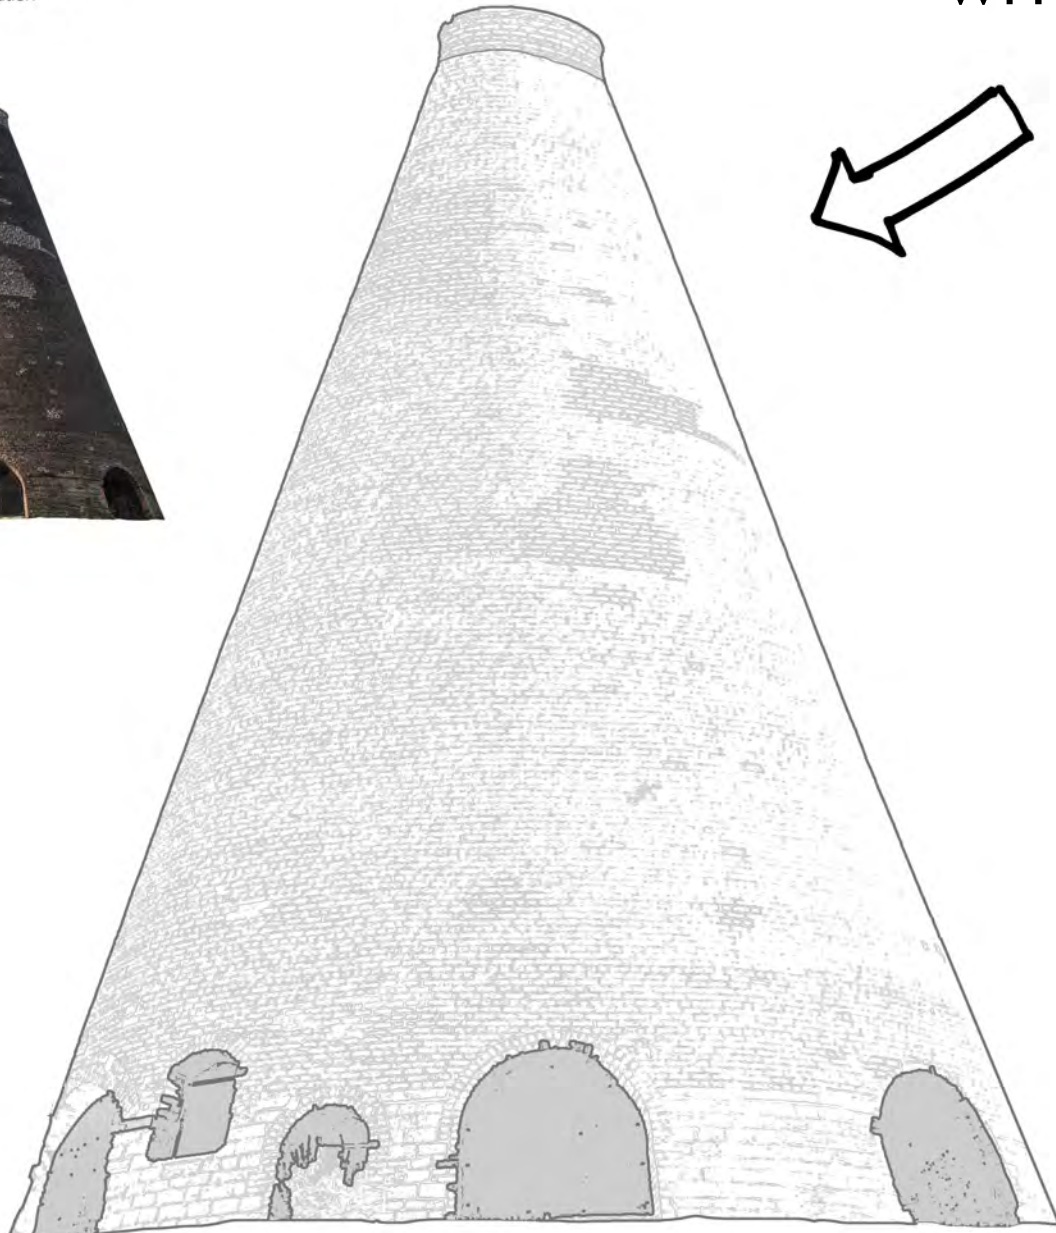

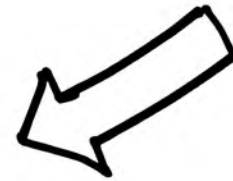

*An idea of what our projection might look like*

Thankyou!

Matt and Rob - Illuminos.
